

PC13-Ultra

The Ultra Experience – Immersive and Legendary Performance

With an unmatched combination of nuance, subterranean extension, jaw-dropping slam and impact, and unerring accuracy, the legendary PC13-Ultra will positively immerse you in music and movies like never before. The PC13-Ultra offers our trademark variable tuning to accommodate different size rooms and deep extension requirements. Finished in high-grade black velour fabric, this unique and elegant subwoofer will complement the most upscale décors and high-end theaters.

"Not only does this Ohio-based company make great speakers, it's also got an innovative streak a mile wide. The PC-Ultra is a daring, brilliant, and idiosyncratic product design, especially in its use of a cylinder to achieve both deep low-frequency extension and high output from a small footprint."
