

## SB13-Ultra

### SB13 Ultra – Unmatched Sound Quality and Extreme Performance - Compact Size

Almost clinical in accuracy, the SB13 Ultra will reveal subtle textures and nuances lesser subs simply ignore. With unmatched transient response, quarter notes and complex bass lines are all delivered with toe-tapping rhythm and pace. Dynamic range is outstanding, with kettle drum and deep piano key strikes rendered with stunning realism. In mid-size rooms with a modicum of room gain, deep extension is fathomless.. In addition to its world-class music chops, the SB13-Ultra won't disappoint on movie night, shrugging off the most demanding DVD passages without breaking a sweat – always staying deep, clean, linear, and powerful.

The SB13-Ultra is the finest compact subwoofer on the market - offering an unmatched combination of high-tech components, features, handsome aesthetics, exquisite sound quality and extreme value. Mission accomplished – SVS style.

### Specifications:

- Front-firing SVS 13.5" Ultra Driver
- STA-1000D Sledge, 1000 watt amplifier
- Black gloss or full veneer black oak finish
- Protective non-resonant steel mesh grille
- Rigid and braced MDF cabinet
- 22-400 Hz +/- 3 dB
- Dims: 17.3" (H) x 17.3" (W) x 17.3"(D)
- Weight: 100 pounds

# SB13-Ultra

## Premium Finishes, Compact Size, Robust Construction

Available in premium real wood veneer black oak or stunning piano-gloss black, and protected by an attractive and durable curved metal grille – the SB13-Ultra will complement the most upscale décors and high-end theaters. At slightly under 18" on all sides, the SB13-Ultra is compact, and easily integrates into your living space. Weighing in at 95 pounds, the SB13-Plus is robustly built with extra-thick CNC cut panels for the ultimate in rigid and resonance-free construction.

## 13 Ultra Driver - Optimized For Sealed Applications

- FEA-optimized motor with copper shorting sleeve to reduce gap induction and distortion.
- Unique bifilar wound, 3" diameter, ultra-high-power aluminum voice coil.
- Unique gap extension plate for additional linear stroke and reduced distortion.
- Dual linear-roll spiders and stitched parabolic surround for extreme excursion capability.
- Ultra-light and rigid Rohacell composite cone provides excellent transient response.

## Sledge Amplification – Intelligent and Sophisticated Power

- 1000 watts RMS continuous power (3600 watts peak dynamic power).
- Efficient, cool-running Class D power with 'green' standby mode.
- Equalization curve optimized for enhanced transient response and to complement room gain.
- Stereo line-level RCA and balanced (XLR) I/O connections for the ultimate in connectivity.
- DSP control for refined behavior under all operating conditions.
- Extensive menu options and digital crossover allows easy integration into any 2-channel system.
- Intuitive and easy to use single knob controller with bright LCD display.
